

# To stay competitive, you need to flex more than your muscles.

Flexpipe Systems delivers the strength and flexibility that sets it apart from other pipeline systems. Flexpipe's patented combination of high density polyethylene and wound fiberglass offers a ready-made pipeline system with the strength of steel and the benefits of a corrosionless, spooled product. Flexpipe Systems provides a modern solution for your toughest pipeline challenges.

**Flexpipe.**  
**Think Poly on Steroids.**
